Parent and Teacher Guide

Studies have proven learning is enhanced through the use of several senses. A recent study shows that we retain 10 percent of what we see, 20 percent of what we hear, and 50 percent of what we see and hear. But when we see, hear and do, we retain 90 percent of the information.
(Lisa Marie Nelson, Ph.D., Author "The Healthy Family Handbook").

The purpose of this Resource & Activity Book is to help children learn and retain the story theme and principles in a fun and educational way. Your children will love coloring pages, solving puzzles, matching games, completing word searches, and much more! Each Resource & Activity Book also features challenging questions and activities for children from preschool through middle school. And in the rare case you don't know an answer, there's an answer key in the back!

LEVEL OF DIFFICULTY

The activities in this book are designed in three levels of difficulty designated by symbols. The activities with one symbol are geared towards younger children while the activities with two and three symbols become increasingly challenging for older children.

Level One
Easy

Level Two
Intermediate

Level Three
Advanced

CURRICULUM RELATED

These educational activities are related to various educational discipline such as social studies (geography, history, culture), language arts (spelling, creative writing, grammar, literature), math (simple equations), and science. There are also activities for character development, video awareness, problem solving, music, and art. The subject codes below are for your convenience.

THINGS TO THINK ABOUT AND DO

NOTE TO THE TEACHER: These are activities for a group to think about and do.

1. It took great courage for the English settlers to leave their homes behind and take a long sea voyage to a strange, new land. Traveling by ship in the early seventeenth century took much longer than it does today. It was also more dangerous. Many ships were crowded, dirty and unsanitary. Why do you think the settlers were willing to make the trip in spite of these problems?

2. Imagine that you were one of the English settlers. Captain John Smith has asked you to make up a list of supplies needed for the voyage to America. How much food and water will be needed? What food can you take that won't spoil? What tools and repair supplies will you need? Can you pick up fresh food and water along the way? Remember, storage space is limited.

3. Everyday life for Pocahontas' tribe, the Algonquian, was very different from the everyday life of the settlers. Discuss some of the differences in housing, clothing, food gathering and education.

4. The settlers learned to trade, or barter, with the Indians for items they needed. What are some of the advantages of the barter system? What are some of the disadvantages?

5. The Indians introduced the settlers to many food plants that are now used around the world. They also invented many things that we still use today. See how many food plants and inventions you can list. You may need to use an encyclopedia.
